

THE LAKE SHORE & MICHIGAN SOUTHERN
RAILWAY COMPANY.

Dear Aunt ³/₄ 1889

Brother Will

Having a few moments to spare this morning I will drop you a few lines. We are all well and still living on Harbor street and renting both of our farm houses. I think we shall move back to our old home some time towards Fall.

We are thinking some of building another house this spring providing I can find some ^{person} who has some money to loan on long time and at about six per cent interest with good security. - houses are in great demand in that particular locality at present and I think always will be so long as the Railroad shops are here.

I think I can build for less money this time than the other house cost me. There is good prospects for a building boom here this season.
